Brandy S. Owens

Dog Trainer

Animal Behavior College Certified

Private Classes

During this six week course, you will have one-on-one time with our certified trainer for up to an hour and a half class, once a week. You and your dog will learn all the ropes of basic obedience, dog training. This includes but is not limited to cues such as Sit, Focus, Stay, Release, Down, Coming when called, Heel, Leave it and much more exercises that will strengthen your relationship as well as your dogs behavior. Obedience training serves a greater purpose than merely teaching your dog to perform behaviors upon command. It is a mental exercise and a comfortable routine that allows you to establish connection or to reconnect with your dog. Learning these routine cues gives your dog the confidence to achieve new ones, building the knowledge of your dog every day. It's really that easy and with 100% positive reinforcement! During the course you may ask as many questions as you like with our certified trainer while also working on other problematic areas you may be experiencing in certain situations with your dog. You will be given a handout of the curriculum taught, during each class, which will give you a lifetime of basic obedience resources.

Group Classes

These classes are a great way for owner and dog to share a bonding experience while also helping in proper socialization. Group classes are held the same as above only in a group setting with more owners and dogs that are willing to take the same steps as you, in learning the proper way to train.

Exclusive “Board & Train”

Whether you are going out of town and need a fun, safe place for your dog to stay or just want to take advantage of our certified dog trainer’s quality one-on-one exclusive time, you can drop your dog off for a day of training. Tell the trainer what problems you have been facing with your dog and let her go to work! This is a work in progress and may require more than one day and lots of practice at home as with all dog training, though it is a great start for setting your dog up to succeed.

Upon graduation, a certificate of completion is given as well as a graduation photo.

Having a well trained dog will please any crowd. Fetch, shake, speak or play dead are useful in this as well. These charming tricks have been around for generations, regardless of a lack of “titles” to his name, a dog who falls to the ground on the command of “Bang” or offers a polite paw to his guest and waves goodbye will be a top dog among your friends! These tricks have come to be expected in any clever canine, basically making it your duty to see which of the many options of tricks your dog might easily learn. Ask our trainer how to add this after basic obedience classes.
